

## EFESME Board of Directors and General Assembly

**The latest meeting of the Board of Directors and General Assembly took place during the ANACAM 2021 EXPO.**

The last EFESME Board of Directors and General Assembly took place on November 26, in the prestigious setting of the ANACAM 2021 EXPO and at the kind invitation of the Italian association and its President.

During the meeting, the EFESME members had the opportunity to **summarise together all the satisfactory activity carried out in 2021** despite all the difficulties of the case, and to **plan the numerous projects that will see the Federation, its technical team and its members fully committed for the year ahead.**

The meeting was also the occasion for a **renewal of some members of the Board of Directors**, proof of the always **dynamic nature of EFESME and the full involvement of its national members.** For the coming year and beyond, EFESME is ready to be more and more involved also at national level, in order to **meet the SMEs it represents directly on the territory** and to dialogue with them about their needs, positions and requests on the most varied topics.

Indeed, the **ANACAM 2021 EXPO** was the perfect setting to bring members together - the three-day event was the perfect opportunity to see each other in person again and **build momentum towards 2022.**

The EFESME Board of Directors, its team and its technical experts, and all its members want to look with cautious optimism towards 2022, aware that the current situation has not yet been resolved, but **certain and convinced of the importance of the activities to be developed in favour and support of lift SMEs across Europe**, with our national and European partners, to build a future in which to thrive.
